

FFU-60-120 TECH DATA

Low noise - 48 dba product

* SCS

1. The FFU system is very versatile and flexible capable of supporting any Clean Room configuration, layout and level of cleanliness. It can also be used in many other applications, like clean booths, clean workbenches, and Clean Room tunnels
2. Material: Rustproof aluminum /Self-contain stainless steel/galvanism/powder coated steel.
3. FFU is compact in size and can be easily installed in Clean Room ceiling grids.
4. Low energy consumption reduces operating cost.
5. It comes with powerful blowers , which is extremely reliable and quiet even under high static pressure.
6. They are capable of achieving Class 100,000 through Class 1 Clean Room condition.

MODLE	FFU - HAXX	
Outer size (mm)	1205×595x320mm	
Surface wind speed(m/s)	min	max
	0.35	0.45
Noise dB (A)	48	
HEPA filter efficient	≥99.995% @≥0.3μm	
HEPA size	1200×590×70(80)mm	
Power (Hz)	AC 50/60 Hz	
Volt (v)	110 ~ 220 v	
Excess pressure outer FFU (Pa)	50 ~ 120	

* Smart control system
